

A HIGH PERFORMANCE DUTCH PRODUCT

# RHIZOTONIC

## Holland's #1 Organic Root Stimulant

CANNA was awarded first prize for its revolutionary plant products at the Amsterdam Growers Festival, a prestigious annual expo in Holland for hydroponic and soil growers. CANNA is the Dutch expert and internationally recognised world wide leader in the manufacture of professional plant technologies for cultivating plants in cocoponic, hydroponic, soil and substrate cultivation processes. The use of our cutting-edge, nutritional plant products are clean, simple, easy to use and do not harm the environment. Everyone, including inexperienced growers, can achieve amazing results with them! Each CANNA product has been carefully developed to offer you the greatest yields possible when using a specific growing medium or method. The secret behind CANNA's superior quality is found in a carefully balanced and integrated blend of the finest main and trace elements for each growing medium and fertiliser combination.

**CANNA**  
The solution for growth and bloom

Today, CANNA is available throughout Europe, Australia, North America, the Middle East and Africa. It has been voted by experts around the globe as Worldwide No.1 in plant technologies. **Quality proves itself!**

# Holland's No.1 organic root stimulant, protector, activator and reviver!

RHIZOTONIC™ is Holland's leading brand of organic root stimulant used by countless growers around the world to activate, protect, revive and stimulate indoor plants, outdoor plants, seedlings, trees, flowers, bulbs, natives and more. RHIZOTONIC™ will armour plate your plant's defence system against moulds such as Pythium, Fusarium, Mildew and Botrytis. Holland's favourite can now be a winner in your garden too!

## UNIQUE 60 IN 1 PRODUCT!

Holland's legendary RHIZOTONIC™ is based on world leading Dutch plant laboratory research regarding the root initiation process to give you the best performing root stimulant ever. It radically accelerates new root growth up to 55% significantly reducing the growth cycle in rapid growing plants. It protects against plant diseases and best of all nothing else makes such a difference! Containing a carefully integrated and balanced formulation of the finest Norwegian seaweed extracts and no less than 60 bio-growth stimulants and vitamins, RHIZOTONIC™ boosts overall plant growth, guaranteeing a superior, more powerful plant needed for BIGGER harvests!

## THE PROVEN WINNER IN SAVING PLANTS!

RHIZOTONIC™ contains revolutionary oligosaccharide chemistry, a high quality saccharine that is a proven winner to save stressed plants due to transplanting, over and under watering, root disease, moulds, root burn, over-fertilising, root pruning and re-potting. Stressed plants suffer root death, which results in slow growth, damaged flowers, reduced yields and reductions in fruit

size and development. So when your plants are feeling stressed, reach for RHIZOTONIC™ to trigger explosive new growth immediately, within several hours in some cases, saving you weeks of valuable time in the process. The faster your plants are growing, the quicker the increase in plant vigour and future yields.

## HOLLAND'S TRULY AMAZING RHIZOTONIC™

- Accelerates the generation of lush, early root growth on cuttings and transplants resulting in more lateral shoot growth so that the branches get as wide as the trunk, ensuring greater plant biomass for a winning result!
- Builds the leaf and root mass required for heavier yields, through no less than 60 instantly absorbable vitamins and bio-growth additives.
- Cutting-edge oligosaccharide chemistry resists injury and saves plants ensuring they are healthier, greener, more powerful and stronger.
- Prevents and protects against harmful diseases like Pythium, Fusarium, Mildew and Botrytis by creating a "biological barrier" between your plant and pathogens.
- RHIZOTONIC™ also functions as a bio-catalyst to let your plants utilise the light energy more effectively thereby increasing the level of your plants' chlorophyll production which accelerates their natural growth and development for higher yield potential.
- The bio-growth additives in RHIZOTONIC™ are crafted to provide the ultimate environment for rapid, effective and healthier rooting. A perfect environment guarantees vital strong, white roots.

- Enhances overall plant growth and chemical reactions in the plant so you can see more new flowers and leaves that are healthier and stronger guaranteeing heavier flowering and fruiting.

## GET VISIBLE RESULTS WITH HOLLAND'S BEST!

- Cuttings & Seedlings: For explosive early white root development, more uniformity, unchallenged survivability and greener, vigorous plant growth; drench, dip, irrigate or foliar spray (mist) for the first few weeks 1:250 (4mL/L).

- Bare Root Stock: To start new root and foliage growth immediately, soak root stock on trees, shrubs, flowering plants and natives for 15-30 minutes before planting 1:250 (4mL/L).

- Indoor & Outdoor Plants: For more uniformity, unchallenged survivability, greener vigorous plant growth and more new flowers, add to fertiliser program or apply when plants are thirsty by drenching or irrigating 1:2000 (0.5mL/L).

- Fruiting & Flowering: To stimulate vigorous advanced flower growth, heavier flowering and fruiting, see more new leaves and achieve a greater plant biomass, add to fertiliser program or apply when plants are thirsty by drenching or irrigating 1:2000 (0.5mL/L).

- Stress Relief, Revival & Survival: To save, revive or help newly potted plants, transplants, ornamentals, flowers, shrubs, natives, trees, seedlings and cuttings, apply by drenching, dipping, irrigating continually or foliar spraying until healthy 1:250 (4mL/L).

- Lawn: To make deeper, quicker, tougher turf, irrigate during the first few weeks after seeding or application of sod 1:250 (4mL/L). For established turf, add to fertiliser program or apply when lawn is thirsty by drenching or irrigating 1:2000 (0.5mL/L).

## PRECAUTIONS

- After adding RHIZOTONIC™, with or without fertiliser, to water, ensure the pH is adjusted accordingly. Recommended pH 5.2 - 6.4

RHIZOTONIC™ is 100% organic and is suitable for all media and systems. It is available in 250mL, 1L, and 5L. All CANNA's award winning nutritional plant products are manufactured in Holland under extreme laboratory conditions and are tested in our own laboratories prior to bottling and export to ensure full formulation compliance.

Try Holland's powerful RHIZOTONIC™ and the CANNA™ range of high performance plant products for yourself today from all leading hydroponic stores. For service call FREE CALL 1800 4 CANNA. Visit us on the web at [www.canna.com.au](http://www.canna.com.au)
